

DRAIN OUTLETS & CORNERS PRE-FORMED IN BITUMEN

Technical data sheet

Drain Outlets

Description

The pre-formed polymer bitumen drain outlets are manufactured to be reliable and economical but above all 100% compatible with the torch on membranes.

Advantages

These products are 100% compatible with the polymer bitumen waterproofing membrane and therefore do not require complicated application procedures. They are adaptable, easy to torch in different situations which arise on roofs, like corners, horizontal drains, etc.

They are easy and economical to apply and simply require the same tools as those used for the polymer bitumen membranes, well known by all applicators. They are also easy to repair as they are made of polymer bitumen membrane reinforced with polyester. Fully compatible with the torch on membranes, they become one with the waterproofing system.

These exclusive accessory items from PLUVITEC are covered by European patent.

Angles

Technical data

Denomination	d [mm]	h [mm]	Pcs x Box
Drain Outlet 60	60	230	12
Drain Outlet 80	80	230	12
Drain Outlet 100	100	270	12
Drain Outlet 120	120	230	12
Drain Outlet 140	140	230	12
Horizontal Drain Outlet 100	100	250/270	12

Denomination	Dimensions [mm]	Pcs x Box
Internal corner	150 x 150 x 150	20
External corner	340 x 340 / 170 x 170	20

Denomination	Dimensions [mm]	Pcs x Box
Angle fillet Cant Bit	45 x 35 x 65 x 1100	30
